Of terday morning, signed, respectively, "Johny Newcome" and "Town Hall." They were clear impositions, and we shall expose such on every occasion. But for cool cheek and egotism, read the following editorial paragraph from yesterday's amexation organ: Moore a charter to cut a trail to this very of Out of nearly 100 immigrants whom the section, with what results so far, will be local Government entrapped with its Free Grant handbill at San Francisco, only four have received any attention worthy the name we have received the following confirmatory of attention at the hands of the Land Office letter from Captain Moore himself, written to people; and they only secured it after telling the Chief Commissioner that they would publish a card in the Colonist detailing their grievances. After two weeks' delay they were furnished with directions to proceed to some unsurveyed lands on the Maude yester-dey." Is it any wonder that people turn away with disgust reading such trash. Is this the way to promote the welfare of a country, notwithstanding the Colonist says with disgust reading such trash. Is okingly, no doubt-" Those connected with creek empries into Dease's river, at the foot this journal certainly cannot have any inter-est in damaging the country abroad, seeing they have spent the best part of their lives in endeavoring to build it up." The statement may be true in one sense, the long and weary years spent in the Province, but with very little good to the country or for "those connected with this journal."

A FEARFUL RAILWAY ACCIDENT .- CHICAGO, August 20 .- The death record of the Chicago and Acton Railroad accident, near Lamont, places the number of dead at 100. Pieces worth as high as eighteen and twentytwo dollars have been taken out. The best part of our report has yet to come, and that is, that there are several creeks in the neighborhood possessing the same gold bearing indications as the one from which the gold was extracted. This is the district of country mentioned by us frequently last winter and spring, and which we urged the Government to assist Captain Moore in opening. The Government, desirous to leave no stone unturned, in order to open up and develop every section of our vast domain, gave Captain

THIBERT CREEK, CASSIAR DISTRICT, July 1873.

To the Hon. R. Beaven, Chief Commissioner of Lands and Works : Sin : I am located on Thibert creek ; this of the lake, and might be considered the west branch of Dease's river. This creek runs about east and west, and is about one third larger than Germansen creek. I have been prospecting, and I find that the creek has gold in paying quantities for five miles in length. The sold is coarse, and of a fine quality; there have been pieces found as high as \$22. There are several smaller streams emptying iuto this creek which have gold in them, but as yet have not been prospecte fairly. I have been prospecting one of them for a faw days, but I was not able to reach the bed rock, as the creek was too high. The bed rock on Thibert creek, so far we ean shal and a detective have just returned | know, is from one to ten feet deep, and the gold generally lies on the bed rock, or within six inches of it. This country has the appearance of a general gold country ; there are seventeen miners on the creek now, and an ounce to two ounces per day; they are all working with rockers. Thibert creek has its source near the head of the second north
